

## **Exhibition on Imam Ali(as) and Syeda Fatima (sa) -India**

### **Potential**

[Imam Ali\(as\)](#) and [Lady Fatima \(sa\)](#) the beloved daughter of the Holy Prophet(saws) are central figures in Islam which all the Muslims agree upon . They are Gods best creation after the Holy Prophet(sa)

Many Muslims and Non-Muslims do not know about them or have very surface knowledge

They have a deep historical context and exemplary stories in their lives

Exhibitions are one way to depict their lives to general masses in a visual manner in a short time

For example one of the interesting exhibits can be the [Khutba-sermon w/o Alif n dots](#)

### **The Business case for stakeholders**

There are many locations in India where there are thousands of visitors each day and such exhibitions could be beneficially located

Two of the probable locations are :

Lucknow bada imamBara or chota Imambara [lucknowimambara.in](http://lucknowimambara.in) and

Jogipura shrine- [NajafeHind.in](http://NajafeHind.in)

These exhibitions will also enhance the touristic appeal of the sites with an added attraction which puts light on history of Islam

It could be a Permanent exhibition or Temporary one in tourist or Religious season

We now need to approach the Politically connected UP government and some active social people in India to make a proposal for an exhibition on Imam Ali(as) and Lady Fatima (sa)

Past success story and outline with benefits can be used and an ” in principle “approval sought

Once idea is approved in principle, a Team of Financiers and Designers n Ulama can be put together to propose the details an get approval / Finance to put these exhibitions up

## Past work done on exhibitions

### Imam Ali Exhibition The Legacy – London UK
